COVID RESPONSE

Join us to help communities brave this wave.
PPE for BPL communities

Communities that are worst affected by COVID and do not have access to personal protection will be provided PPE at INR 150/$2 per person for a day.
Home collection for RT-PCR tests

To help communities to test and isolate, we offer a home collection of RT-PCR tests for CoV-2 at INR 1200/$17 per test. Samples are processed at YRG Infectious Diseases Laboratory (NABL Accredited, ICMR approved, ICMR No:YRG001).
Tele consultation for COVID homecare

As hospitals are over-burdened we make every effort to ensure quality home care for COVID at INR 3000/$40 per person. This includes remote monitoring every four hours, referrals for imagining and laboratory investigations for two weeks. We have a dedicated app and IVRS to reach diverse settings.
COVID RELIEF

Join us to support recovery of the most affected communities.
YRG 1-2-1 Helpline

12 dedicated volunteers help to triage calls for HIV and COVID.

YRG121 Counseling in-person/online for youth & emotional support groups

Extending psychosocial and mental health support

INR 300/$4 per session
Nutritional hampers for children with HIV

We support 600 children and their caregivers with nutritional requirements for three months at INR 750/$10 per child.
Food for essential workers

Our industrial kitchens can churn out up to 30,000 meals per day. We offer three meals at Rs 150/$2 for an essential worker per day.
The stop the pandemic in its tracks is to prevent the virus from finding a host. Our communities are only as safe as our collective prevention methods. We aim to empower community leaders with the recent updates in prevention, early detection and access to care.
